Chairman Carvelli stated that Commission staff are limited and it is difficult to guarantee that all officials and licensees are notified personally of the meeting. He explained that all meeting notices and agendas are posted on the website (www.dca.ca.gov/csac) and it is the responsibility of the Commission to ensure that the public is aware of what is occurring with the Commission.

The Commission celebrated Mr. Marty Denkin’s retirement at The Forum on May 16, 2015.

On July 3, 2015 the North American Boxing Federation will be holding their 2015 Convention in San Francisco, California. The Chairman and Executive Officer have both been invited to attend and present on behalf of the Commission.

The motion passed 7-0 by roll call vote.

Martha Shen-Urquidez gave background information on when the Commission began the process of proposing this regulation change. Gary Duke stated that the Article 14 should be changed to Article 12.5.

Vice-chair Lehman motioned to approve the modified TUE language and allow staff to make technical changes; Dr. Williams seconded the motion.

Agenda Item 10 – Discussion and possible action regarding the USA Boxing's request for a waiver of the mandatory head gear rule for the United States Olympic Trials in August December 2015

The Executive Officer (EO), Mr. Andy Foster, stated that the United States (U.S.) Olympic Trials will be held in December 2015, as opposed to August 2015 which was stated on the Commission meeting Agenda.

Mr. Mike Martino presented the Commissioners with his request for an exemption to allow amateur boxers to compete in the U.S. Olympic Trials in December 2015, without headgear. He further requested that the Commission table the issue since it is not urgent, and that he would like an opportunity to discuss further with the newly appointed Executive Director of the International Boxing Association (AIBA). He stated that he agrees that wearing headgear protects athletes, therefore, he would like the Commission to table the issue at this time.

Commissioner Shen-Urquidez stated that USA Boxing has been stating that they would provide medical documentation associated with headgear in amateur boxing, however they have not provided anything. She agrees that this matter should be tabled since it seems premature. She suggested to Mr. Martino that when they are ready to present this matter again to the Commission, that they have the medical documentation ready for the Commission's review. Mr. Martino reiterated that USA Boxing agrees that headgear is beneficial for amateur boxing. With that being said, he stated that if the U.S. wants to compete internationally, the team is required to compete under AIBA's rules, which removes the headgear.

Dr. Williams stated that he agrees that there needs to be additional data submitted for review before a decision can be made.

Commissioner Ayala agreed with Commissioners Shen-Urquidez and Dr. Williams. He further asked for clarification on whether or not USA Boxing needs to request, from each and every state, an exemption? Mr. Martino responded that yes, USA Boxing is required to do so.

The Commission decided to table this item.

Agenda Item 9 – Discussion, review and possible action regarding the status of current delegation to USA Boxing

The Commission decided to table this item.

Agenda Item 8 – Executive Officer's Report

a. Budget Update

The EO gave the budget update. He stated that the Commission will exceed revenue projections for this year and will be reverting money back. This year, due to settlements, it was important to be frugal.

b. Report on Pending and Proposed Regulations and Legislation

The EO gave an overview of pending regulations and legislation.

c. Traumatic Brain Injury Test Field Kits Update

EO stated that the brain scanners were ordered and received. The Commission and a few Ringside Physicians will be receiving training as well as utilizing them at the UFC Fight Night on July 15, 2015 in San Diego, CA.

d. Catastrophic Injury Incident Plan Update

Commissioner Sauter recommended that the Commission create a Catastrophic Injury Incident Plan. The EO, Chairman, Assistant EO and Dr. Paul Wallace worked on producing a plan. Commissioner Shen-Urquidez suggested possibly having a plan like this for the various venues – for emergency situations, allowing the Staff and Commissioners to know how to safely vacate larger venues.

Dr. Williams commented that this can be extended to certain kinds of messages (statements), or public relations (PR), drafted before each event. Have this message ready in case of an emergency. Chairman asked the EO to work with the Department of Consumer Affairs Office of Public Affairs, to draft press releases for various scenarios.

e. Status Update of Officials Training Subcommittee

The EO stated that there have been numerous conference calls on this topic. He stated that the Commission is conducting the Pod Index online scoring with 12 volunteers to test the training mechanism. Commissioner Shen-Urquidez stated that CSAC officials will be required, throughout the year, to score a certain amount of practice rounds utilizing this tool. Boxing officials will be required to practice judge 100 rounds per year, 50 televised rounds, and 50 live* rounds. MMA officials will be required to practice judge 30 rounds per year, 15 televised rounds, and 15 live* rounds. *Live - Attending the event as a non-working official and practice judge.

The official will be required to maintain a certain percentage of accuracy in order to continue to receive assignments. The goal of this requirement is to ensure that all judges are trained, and continue their education. She further stated that there will be two stakeholder meeting, one in Northern California and one in Southern California. She further mention that the Commission needs to create a test for the officials (4 for MMA& 4 for Boxing) that will be given at the ABC Convention in July 2015.

f. Status Update of Delegated Entities

The EO presented the reports provided by CAMO and IKF. Mr. JT Steele stated that he loves the idea of the emergency plan and that all delegated entities should be included in the emergency plan efforts.

g. Neurological Fund Update

The EO gave an update on the Neurological Fund. He stated that the spending authority has been cut.

h. Association of Boxing Commissions' San Diego Convention Update

The EO explained that the ABC Convention Agenda is in the Commission materials for review.

i. Update on Process to Monitor and Report Weight Gain from Weigh-In to Bout

The EO stated that there is a major concern regarding significant weight gain from the day of the weigh-in to the day of the event. The average weight gain at a recent MMA event was 19 pounds. He stated that current data has indicated that this concern is not as significant in boxing. However, the Commission is continuing to compile the data. The EO has ordered specific gravity strips to incorporate with the drug testing. These strips are utilized to tell if an athlete is dehydrated or over hydrated. It is possible to over hydrate and dilute urine samples which makes it difficult for the lab to test these samples. Nevada is currently working on a case where the first test was positive, however, the second test was negative. It appears that excessive hydration diluted the second sample, resulting in a negative finding.

Agenda Item 11 – Return to play discussion: Is a 45/30 day medical suspension requirement adequate?

Commissioner Shen-Urquidez stated that she found on Dr. William' web site, a study regarding concussions. This study was regarding the difference between women and men recovering from concussions. The average recovery for women was 27 days and for men it was 67 days. She suggested that Commission consider modifying the mandatory medical suspension requirement. Dr. Williams stated that it would be a good idea to ask the Medical Advisory Committee (MAC) to look at this matter further. Commissioner Frierson stated that he agrees this matter definitely be looked at.

Chair Carvelli requested that the EO relay this issue to the MAC for further research. Dr. Williams offered to assist the MAC with this topic and circle back at the next Commission meeting.

Agenda Item 12 – Discussion regarding issues brought forth at the April 28, 2015 meeting, concerning International Kickboxing Federation's social media posts and unsanctioned events.

President of International Kickboxing Federation, Mr. Steve Fossum, was is not in attendance at the meeting. The EO stated that Mr. Fossum said he confused the dates of the meeting.

Commissioner Shen-Urquidez provided 3 hand-outs from IKF's web site of items still on the web site that the Commission has requested Mr. Fossum to remove the items 6 months ago. She further stated that IKF is required to follow CSAC's rules and reviewed many rules which do not appear to meet or exceed the corresponding CSAC rules.

Chair Carvelli recommends sending an official letter to Mr. Fossum noticing him that IKF has been placed on probation for 60 days.

Commissioner Frierson stated that he would have a difficult time making a decision on this without Mr. Fossum being present.

Chair Carvelli motioned to place IKF on probation until the next Commission meeting with a requirement that Mr. Fossum attend the next meeting to present his case to maintain the delegation; Commissioner Shen-Urquidez seconded the motion.

Sauter commented that we should state it's a continuation of this relationship.

The motion passed by 5-0 roll call vote.

*Dr. Williams – Yes; Frierson – Yes; Sauter – Yes; Shen-Urquidez – Yes; Carvelli – Yes

MEMORANDUM

DATE	September 1, 2015
TO	John Carvelli, Chair Mary Lehman, Vice-chair John Frierson, Commissioner Martha Shen-Urquidez, Commissioner Van Gordon Sauter, Commissioner Dr. Vernon Williams, Commissioner Luis Ayala, Commissioner
FROM	Andy Foster, Executive Officer California State Athletic Commission
SUBJECT	EXECUTIVE OFFICER'S REPORT

Budget Update

The Commission closed FY 2014/15 with revenue of \$1,726,029 and expenditures of approximately \$1,420,000. The Commission had a surplus of approximately \$306,000 that was added to the fund balance. The Commission has approximately 7 months of reserve in the fund at the close of FM13.

Report on Pending Regulations and Legislation

Senate Bill (SB) 469 was in Assembly Appropriations on 8/19/2015 and it was placed on the suspense file as a matter of procedure.

The Transgender and Therapeutic Use Exemption Regulation package was submitted to the Office of Administrative Law on July 28, 2015. The public hearing for this proposal will be on September 21, 2015, at the Commission's headquarters building.

The Television Broadcast Fee regulation package was approved and became effective July 1, 2015.

The Pension "lost beneficiary" clause regulation package was approved is effective October 1, 2015.

The Neurological Account regulation has run out of time and will be re-drafted with the help of the Advisory Committee on Medical and Safety Standards and the newly formed Neurological and Medical Subcommittee, chaired by Dr. Williams.

Traumatic Brain Injury Tests Field Kits Update

The Infrascanner 2000 models were used at UFC Fight night in San Diego on July 15, 2015. Five of the Commission's Ringside Physicians were trained on the devices that day. The devices were also used this past weekend at several of the events the Commission regulated. While training is still ongoing on the devices, the Infrascanner company has been very accommodating in sending videos and offering additional training. MedLogic is very engaged that CSAC is successful in implementing these units into Combat Sports.

Status Update on Officials Training Subcommittee

The subcommittee created boxing and mixed martial arts competency exams that were given at the required training in San Diego at the Association of Boxing Commissions annual conference. The northern CA officials will be given the test following the NorCal training on September 20, 2015, following the Association of Boxing Commissions sponsored training.

The POD Index contract is completed and signed. The scope of work and cost is included in your packet. The training subcommittee sponsored a training opportunity for officials at the Bellator MMA event on August 28, 2015, broadcast on Spike; and the Tom Brown Boxing Event on August 29, 2015, broadcast on ESPN. The officials were able to remotely score the fights in real time while watching at home and the non-working officials were able to score the bouts live at the events. The cumulative scoring information for the officials will be made available this week.

The Officials Training Subcommittee and I are also working on development of a kickboxing training session.

Recommendation to consider minimum purses for licensed athletes-

I am recommending the Commission consider adopting a regulation requiring promoters to pay a minimum purse amount per round of scheduled boxing, mixed martial arts, or kickboxing.

While paying athletes one dollar on the contract has declined since the Commission last year when the Commission addressed the issue, I am still seeing the practice periodically. A regulation would protect the athletes from exploitive practices, as the promoter would be required to pay a minimum purse amount.

This would also ensure that athletes who "sell tickets" as part of their purse are guaranteed at least some level of income for their participation in a professional combat sports bout.

I have included the regulation from the Georgia Athletic and Entertainment Commission for your review. I would recommend the minimum purse be set at \$75 dollars/round. Using that number, a four round boxer would be guaranteed at least \$300.00 for competing.

Association of Boxing Commission's San Diego Convention Update

Chairman Carvelli, Commissioner Shen-Urquidez, and I attended the ABC convention in San Diego, CA in late July 2015. CSAC provided a drug testing demonstration and a lecture on proper glove selection.

Update on Process to Monitor and Report Weight Gain from Weigh-In to Bout

The Commission recently received the dehydration scale and staff was able to utilize it at the Bellator event on August 28, 2015. The Commission staff is still actively engaging in this process and I will keep the Commission updated on this process.

Update Regarding Instant Replay

The Association of Boxing Commissions approved a policy on Instant Replay to be used at events. The Commission may wish to consider if a regulation authorizing the policy is in the best interest of California licensees. This policy is in your Commission Meeting binder.

Update Regarding Pechanga Indian Reservation

Mark Macarro, the Tribal Chairman of the Pechanga Indian Reservation, has provided a letter consenting to CSAC regulating boxing and mixed martial arts matches at the Pechanga Resort and Casino. This letter is in your Commission Meeting binder.

In the event the Contractor fails to keep in effect at all times all required license(s) and permit (s), the State may, in addition to other remedies it may have, terminate this Contract upon occurrence of such event.

EXHIBIT E

ADDITIONAL TERMS AND CONDITIONS

1. RIGHT TO TERMINATE: The State reserves the right to terminate this agreement subject to 30 days written notice to the Contractor. The Contractor may submit a written request to terminate this agreement only if the State should substantially fail to perform its responsibilities as provided herein.

However, the agreement can be immediately terminated for cause. The term "for cause" shall mean that the Contractor fails to meet the terms, conditions, and/or responsibilities of the agreement. In this instance, the agreement termination shall be effective as of the date indicated on the State's notification to the Contractor.

2. LIABILITY FOR LOSS AND DAMAGES: Any damages by the Contractor to the State's facility including equipment, furniture, materials or other State property will be repaired or replaced by the Contractor to the satisfaction of the State at no cost to the State. 4. POTENTIAL SUBCONTRACTORS: Nothing contained in this Agreement or otherwise shall create any contractual relation between the State and any subcontractors, and no subcontract shall relieve the Contractor of its responsibilities and obligations hereunder. The Contractor agrees to be as fully responsible to the State for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Contractor. The Contractor's obligation to pay its subcontractors is an independent obligation from the State's obligation to make payments to the Contractor. As a result, the State shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.
5. DISABLED VETERAN BUSINESS ENTERPRISE (DVBE): The State has determined that the DVBE participation goals for this Agreement are exempt. However, the Contractor may use DVBE's and report the participation to the State.

August 30, 2015

To: California State Athletic Commission

From: California Amateur Mixed Martial Arts Organization, Inc. ("CAMO")

Re: CAMO UPDATE / DOCUMENT REQUEST

Below and attached please find a CAMO update and report in anticipation of the regularly scheduled CSAC meeting scheduled for September 1, 2015 in Los Angeles, CA:

1. CAMO MINIMUM WEIGHT STANDARDS:

In Collaboration with the CSAC, CAMO is exploring new rules and regulations to address extreme weight-cutting practices by athletes that are potentially unhealthful. In an effort to manage the practice of extreme weight-cutting to unhealthful levels CAMO and CSAC executive officer Andy Foster propose a mandatory minimum competition weight ("Minimum Weight") that will be established for each athlete. The Minimum Weight will be established by a calculation set forth in a proposed CAMO Rule and Regulation change (see Exhibit #2).

In order to properly calculate the Minimum Weight, all athletes will be required to complete a body composition test to determine their lean body mass. CAMO proposes that the annual CAMO physical examination be amended to include a body composition test (see Exhibit #1).

Body composition tests are generally conducted by skin caliper or bioelectric impedance testing methods. CAMO is in the process of contacting physician offices to verify that body composition exams are generally available in physician offices and reasonably accessible to athletes. In the event that body composition testing is not generally available, CAMO is exploring other options to make body composition testing accessible including, but not limited to: testing at CAMO events and establishing a network of ringside physicians to administer the physical exams in their offices.

2. REGULATIONS ESTABLISHING AGE BRACKETS FOR COMPETITION:

CAMO seeks CSAC support to establish age brackets in order to promote fair matches. Amateur athletes range in experience and age and must be matched accordingly. Large age differences between opponents increase the potential for disparities in experience, physical abilities, and mental toughness. In order to reduce the likelihood of unknown disparities between opponents CAMO proposes the following amendments to CAMO policy:

- a. Any athlete 36 years or older shall not compete with any opponent that is not within (10) years his age.

- b. Any athlete 40 years or older shall not compete with any opponent that is not within five (5) years his age.

CAMO would like to implement the age brackets immediately as a policy measure. Full rule and regulations including medical forms will be submitted to CSAC for review at the next CSAC meeting.

3. DRUG TESTING:

CAMO is on schedule to begin drug testing in October with some preliminary testing for training purposes in September. CAMO and CSAC will be the first commission in the country to institute drug testing in amateur competition. The proposed rule changes to the CAMO drug testing policy are currently being discussed and are attached hereto for discussion and comment (See Exhibit #3).

4. CAMO SAFETY AND SUSPENSION REPORT:

Attached as Exhibit #4 is the suspension history for all bouts that have been conducted since the June 23, 2015 CSAC meeting. In short, there have been no injuries of a heightened concern for the commission to review.

In closing, the summer of 2015 was successful and one focused on development and progress towards improving the sport of amateur MMA. Thank you for your continued support.

Sincerely,

JT Steele

§ TBD. Minimum Competition Weight.

Any person applying for a license or the renewal of a license as an amateur mixed martial arts fighter will be issued a minimum competition weight ("Minimum Weight"). A contestant shall not compete in any contest that is scheduled for a weight or weight class that is below his Minimum Weight.

The body composition test shall be completed by a licensed physician as part of the annual physical examination required for licensing. The calculation of Minimum Weight shall be established through a body composition test to determine lean body mass. The body composition test shall be conducted by skin calipers, bioelectric impedance, or any other tested determined to be reliable by CAMO. The Minimum Weight will be established by the sum of the Minimum Weight plus seven (7) percent of the Minimum Weight. [Minimum Weight + (Minimum Weight x 7%)].

A contestant may establish a new Minimum Weight at any time by submitting a new body composition test signed by a physician on the appropriate CAMO form.

(b) In order to detect the presence of any prohibited substance, a contestant shall submit to any pre-contest or post-contest urinalysis or other laboratory procedure that is ordered by the physician appointed by CAMO. Refusal to submit to such testing shall result in the immediate disqualification of the contestant from the match and an indefinite suspension from the amateur sport of mixed martial arts.

(c) CAMO may conduct a urinalysis as follows:

1) All contestants may be ordered to complete a pre-contest urinalysis exam to detect the presence of any drug.

2) In addition to a pre-contest analysis, CAMO may, at its discretion, decide to test for the presence of performance enhancing drugs and thereby require additional urine specimens to be produced at any time after the completion of the contest.

3) Collection of specimens for urinalysis testing shall be conducted or supervised by a CAMO official. Refusal to submit to such testing shall result in the immediate disqualification of the contestant from the match and an indefinite suspension from the sport of mixed martial arts.

2) Second Offense: 180 day suspension.

INSTANT REPLAY POLICY/GUIDELINES

The ABC Instant Replay policy/guidelines shall include, but not be limited to the following. The Supervising Commissioner, or, his/her designated representative will be the Instant Replay authority and his/her decision will be final.

Instant replay is another tool when effectively used can aid the Supervising Commission in their effort to achieve a fair and reasonable outcome on questionable issues, given that proper reviewing and monitoring equipment is available at the venue.

Instant replay should provide a timely review of certain instances that occur in striking sport events that may have an effect on the outcome of the bout. Instant replay should not be used if the replay review cannot be completed during the 60 second rest period. Therefore, a timeout may not be called during the round nor extended time be given during the rest period between rounds. Challenges of an issue occurring during the final round of a bout must be completed within 2 minutes of the conclusion of the bout.

A designated, licensed corner person is the only individual that can challenge an issue and must notify the referee immediately at the conclusion of the round in which the issue occurred. If the designated, licensed corner person doesn't notify the referee of a challenge to an issue that occurred during the previous round before the end of the rest period. An appeal may be filed with the respective commission in accordance with the applicable rules and regulations and a hearing will be scheduled before the full commission at a later date.

Due to the cost associated with the purchase and maintenance, Commissions are not required to provide recording equipment. Any and all such equipment is the responsibility of the promoter, manager or contestant. Supervising Commissions may require promoters to provide a complete copy of the bouts within a stated number of days after the conclusion of the event as a condition of bout approval/licensing as outlined in the respective rules and regulations, or by policy.

In the event that a clear and obvious violation occurs during the bout, and the referee makes the wrong application of the rule. The Supervising Commission, at his/her discretion may discuss and correct the violation with the referee during the designated rest period. Therefore, not interrupting the flow and official time of the bout. This should be done immediately following the round in which the issue in question occurred. Only video recorded by the promoter, a person contracted by the promoter or Commission will be accepted for challenge and the appeal process.

- A. Instant Replay may be used to reverse the decision of the referee under the following conditions:
1. The bout must be televised or recorded.
 2. Televised bouts must have Instant replay capability, with a monitor and communication between the commission representative and the producer of the televised event designated to a Commission Representative providing several camera angles.
 3. Club Show bouts may be recorded by the promoter, a contractor of

the promoter or the Commission. Any "CD" or "DVD" being considered for an appeal of a specific issue must be of good quality, not grainy, distorted or unclear. The specific issue under appeal must be submitted to the Supervising Commission no later than 7 days after the conclusion of the bout. The specific issue in question must be submitted on a CD and becomes the property of the Supervising Commission.

4. No review on cell phones, IPADS, Laptops or similar devices will be considered.

USADA's Anti-Doping Progr

Overview

The U.S. Anti-Doping Agency (USADA), runs the anti-doping program including education, sample collection, results management, and drug reference resources for athletes in U.S. Olympic, Paralympic, Pan American, and Parapan American Sport, including all Olympic sport national governing bodies, their athletes, and events throughout the year. Additionally, USADA's commitment to clean competition and the integrity of competition also includes programs aimed at scientific research and education & outreach initiatives focused on awareness and prevention.

USADA is a signatory to the World Anti-Doping Code and fully complies with the World Anti-Doping Code's International Standards. Our anti-doping program, which includes policies & procedures, highly trained office staff, and doping control is often referred to as the gold standard in anti-doping globally and is at the forefront of the fight for clean competition.

Explore Our Programs

USADA's sample collection processes are fully compliant with the World Anti-Doping Code and International Standard for Testing & Investigations. A safe and secure sample collection process is one of the most important pieces of an effective anti-doping program. Athletes may have both blood and/or urine samples collected at an event (in-competition testing) or at another location as part of USADA's out-of-competition testing program.

Test Distribution Planning (TDP): Through the TDP process for both events and out-of-competition testing, USADA works collaboratively with a number of entities to determine factors such as:

- How many tests will be collected
- Which athletes will be tested
- When testing occurs
- If urine, blood, or both will be collected
- What special analysis, including hGH or CIR testing, may need to be performed on the samples

Doping Control Officers: USADA has more than 50 highly trained doping control officers (DCOs) stationed throughout the United States. Our DCOs are employees of USADA and receive extensive training, evaluation and feedback and have experience in both in-competition and out-of-competition testing.

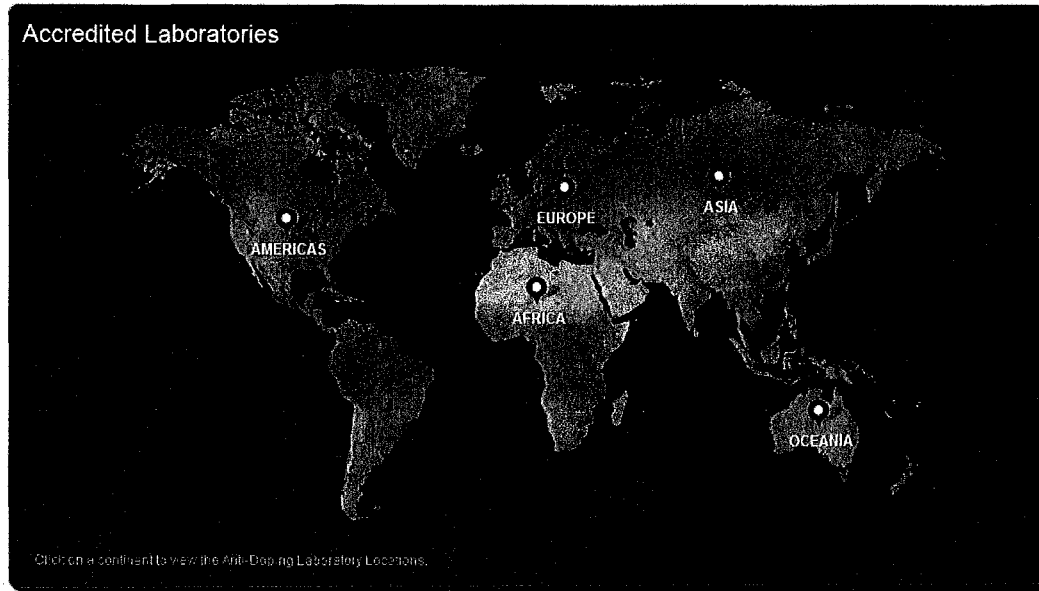

Event Management: USADA's office staff and doping control officers will work directly with event organizers to ensure the sample collection process runs smoothly at an event, including securing a proper doping control station; obtaining necessary materials such as fluids for athletes; and ensuring any necessary personnel or volunteers are available.

Procurement of the Sample, athlete forms and shipment to the Lab: In accordance with the World Anti-Doping Code and International Standard for Testing & Investigations, USADA's DCOs obtain samples from athletes and work with a trained phlebotomists when blood draws occur. USADA's DCOs are highly trained and understand all aspects of the sample collection

process, including best practices for unique situations, issues and scenarios as well as collections from disabled and minor athletes. DCOs also work to prepare the samples for shipments to WADA accredited laboratories and work with athletes to ensure all paperwork is completed correctly.

Sample Analysis

USADA’s DCOs ensure accurate and prompt shipment of samples to a WADA accredited laboratory, ensuring the integrity of the sample is maintained and proper chain of custody recorded. All athlete samples are analyzed at WADA accredited laboratories, not by USADA, which ensures an additional level of independence and objectivity in determining the results of an athlete’s sample, and are subject to special analysis including hGH, CIR and IRMS detection methods. All lab results are sent to USADA, and uploaded directly by the lab to the World Anti-Doping Agency’s Anti-Doping Administration & Management System (ADAMS). All WADA laboratories adhere to the WADA International Standard for Laboratories ensuring they operate effectively.

In the United States, there are two WADA Accredited laboratories: the UCLA Olympic Analytical Laboratory in Los Angeles, Calif. and the The Sports Medicine Research and Testing Laboratory(SMRTL) in Salt Lake City, Utah.

Throughout the world there are currently 32 laboratories accredited to conduct human doping control sample analyses.

IKF CALIFORNIA OVERVIEW

HEALTH AND SAFETY

Of the nearly 450 bouts that the IKF regulated under the CSAC Delegation in California in 2015 (29 Events), there was not a single serious injury that required any hospital stay. Of them, due to our safety conscious referees and medical staff, 73 of these bouts were stopped during the rounds by TKO or KO for the safety of the fighters.

To add, from the beginning of our delegation (March 17th, 2014) to the end of 2014, the same was true for all of these events as well. Not a single serious injury that required any hospital stay. These statistics are ones we are proud of for the amateur athletes in these sports under our watch.

OFFICIALS LEADERSHIP & SKILLS

Next to health and safety, another top goal of the IKF has been Officials Education in helping them improve their knowledge and skill level. This was actually the number one goal as requested by those in these sport disciplines. It is with great pride that the IKF can say that by associating with those "True" to the tradition and spirit of these disciplines, this goal has not only been accomplished, but done so that the true tradition of these sports is greatly honored here in California at the Amateur level.

This has been accomplished with a tight group of passionate officials true to the roots of these sports and done so with great emphasis on health and safety of the athletes involved. With the help of the excellent ringside medical doctors we have aligned with for these events along with bout referees who's number one goal is the safety of the fighters, this goal became a reality within the first few events.

EDUCATION OF THOSE IN THE SPORT

Although we are working with just amateur athletes, educating them on issues from the sports culture itself, how to properly cut weight, the needed disciplines of things such as punctuality, coming in on weight and respect to their peers has increased the sports professionalism tremendously.

GROWTH OF THE SPORT

On March 17th, 2014 the California State Athletic Commission (CSAC) delegated the IKF, (*International Kickboxing Federation*) the authority to regulate Amateur Kickboxing and Muay in the State of California. As of today, August 20th, 2015, the IKF has Sanctioned/Regulated 60 Amateur events in California which is an incredible increase from prior years. In doing so, the amateur athletes has been given more opportunities to compete more often which in turn, has developed and improved each individual as a fighter in the amateur ranks.

PREPARING THEM FOR THE PRO LEVEL

All of these issues have helped the athletes and trainers in preparing them for the possibility of becoming professional athletes in the sport as they increase their skills day by day, fight by fight. Our focus to the amateur athletes is to point out where they need to become more educated in the fight sport world, not just fighting. Educating them on learning the many aspects and how each relate to the ring of battle.

RESPECT & APPRECIATION

As Muay Thai and Kickboxing events decline nationwide due to untrained or improperly trained officials, these sports are growing rapidly here in California at the amateur level through the Teamwork and Leadership of those passionately involved. It continues to be the goal of the IKF to bring back the respect California once had in Muay Thai and Kickboxing for all involved from the trainers, fighters, officials, promoters and more so, the fight fans who support the sports of Muay Thai and Kickboxing around the world.

RE: **Seconds License Application Denial**

Dear Mr. Capetillo:

This letter is to serve as notice that the California State Athletic Commission has denied your application for a Seconds' License based on the following criteria:

You have previously been suspended by the Athletic Commission for violation of the California Code of Regulations, Title 4, Rule 323, which states:

Bandages shall not exceed the following restrictions:

One winding of surgeon's adhesive tape, not over one and one-half inches wide, placed directly on the hand to protect that part of the hand near the wrist. Said tape may cross the back of the hand twice but shall not extend within one inch of the knuckles when hand is clenched to make a fist.

Contestants shall use soft surgical bandage not over two inches wide, held in place by not more than ten yards of surgeon's adhesive tape for each hand. Not more than twenty yards of bandage may be used to complete the wrappings for each hand. Bandages shall be applied in the dressing room in the presence of a commission representative and both contestants. Either contestant may waive his privilege of witnessing the bandaging of his opponent's hands.

You are hereby prohibited from engaging in activities of a licensed second at boxing events held in the state of California.

Business and Professions Code section 18842 (Attachment A), provides you a right to appeal the suspension before the Athletic Commission. Appeal procedures are outlined in Rule 389 (Attachment B), which is attached for your review along with the Appeal request form (Attachment C). You must submit your appeal request, in writing, within 30 days of the date of this letter as instructed on the form.

JAVIER CAPETILLO

[REDACTED]

It has been 6 years since the one year suspension was issued. I continue to maintain that this unfortunate incident was a mistake. I did not, knowingly nor maliciously, use tampered hand wraps. My intentions were never to compromise the integrity of the sport. I have great respect for the sport and I am deeply sorry for the occurrence. Human error on my behalf does not change the fact that an infraction was committed. For that, I took responsibility. On November of 2014 I received a Seconds License signed, dated and stamped by the California State Athletic Commission. On 3/13/2015 with license in hand I was not allowed to work my fighters corner. I would like to request a hearing date so as to further discuss the aforementioned

Thank you

Javier Capetillo

CSAC CATASTROPHIC INCIDENT/INJURY PLAN

Definition of a Catastrophic Incident/Injury

For the purposes of the California State Athletic Commission (Commission), the term *catastrophic injury* is defined as any severe injury incurred during participation in a Commission regulated combat sports event. An evacuation plan shall be initiated by the Ringside Physician and carried out by the on-site paramedics.

Catastrophic injuries are categorized as follows:

- **Fatal**
- **Nonfatal:** permanent, severe functional disability
- **Serious:** no permanent functional disability but severe injury; for example, a fractured cervical vertebra without paralysis

Sport-related injuries are also considered direct or indirect.

- **Direct:** injuries resulting directly from participation in the skills of the sport
- **Indirect:** injuries caused by systemic failure as a result of exertion while participating in a sport activity or by a complication secondary to a nonfatal injury

I. Incident Management Team

The Commission Management and Response Team shall consist of: the Lead Athletic Inspector, the Executive Officer (EO) or Assistant Executive Officer (AEO), the Chair of the Commission (Chair), the Senior Deputy Attorney General (DAG), and the Department of Consumer Affairs (DCA) Press Secretary.

II. Evidence Retention

The Lead Inspector shall impound the gloves and the wraps the fighter not catastrophically injured and any other key evidence. The Commission may impound the gloves and wraps of the catastrophically injured athlete and any other key evidence, when practical.

III. Notification Protocol

The Lead Inspector shall notify the EO of the incident with as many facts that are available as soon as possible. The EO shall notify the Chair, the DCA Press Secretary and the DAG as soon as possible. The DCA Press Secretary, working with the EO and the Chair, shall then promptly draft a statement for the press.

IV. Transfer of Medical Care

Once the Paramedics are engaged and the evacuation plan has begun, the Ringside Physician relinquishes all responsibility and liability for providing care. Subsequently, any comment, suggestion or inquiry regarding care by the physician rescinds the transfer of care. After this transfer of care, the Ringside Physician should make no comment, suggestion or further inquiry concerning the injury or incident.

V. Press Response

The EO will promptly appoint one person to respond to the press. All other Commission staff and officials shall not speak to the press regarding this matter without the EO or the Chair's request/approval. Any approved response to the press must be brief, and not speculative. (i.e., "The Commission will be starting an investigation into the circumstances."; "The Commission will be reviewing available video and debriefing the officials that were on-site."; etc.) Any and all opinions/judgments of the situation are to ONLY be made by the Chair and the EO of the Commission.

VI. Investigation

The EO shall promptly request and manage an investigation on the catastrophic injury. All material evidence and written statements shall be sent to the CSAC office by the Lead Inspector immediately following the event.
