OPEN SESSION

Agenda Item 1 – Call the meeting to Order / Roll Call / Pledge of Allegiance/ Establishment of Quorum

The meeting was called to order at 10:00 a.m., Executive Officer (EO) Andy Foster called the Roll and a quorum was established.

Agenda Item 2 –Welcome –Chairman’s opening remarks

Chairman John Carvelli welcomed everyone to the meeting and reviewed two recent events which occurred outside of California. He mentioned that he has received many comments regarding the result of each bouts, to which he stated that judges and referees do not have an easy job.

Chairman Carvelli offered his condolences to Commissioner Frierson whose wife recently passed away and recalled the beautiful services at which he and EO Foster were in attendance.

Commissioner Frierson expressed his appreciation to everyone for reaching out and for attending his wife’s services.

**Agenda Item 4 – a. Business and Professions Code section 18640.5 requires the Commission to invite stakeholder testimony at Commission meetings in order to identify actions that may lead to greater opportunities for licensees to participate in major professional boxing contests.**

There were no comments for this item.

**Agenda Item 4 – b. Recognition of Golden Boy Promotions for Providing Greater Opportunities for CSAC Licensees to Participate in Major Professional Boxing Contests.**

Chairman Carvelli explained the purpose of the awards being presented and welcomed Mr. Rolando Arellano, In-House Legal Counsel, who was in attendance at the meeting to accept the award on behalf of Golden Boy Promotions.

Commissioner Luis Ayala presented Mr. Arellano with an award on behalf of Senate President Pro Tem Kevin de León, who sought to commend Golden Boy Promotions for not only their continued efforts to hold major boxing events in the Los Angeles area, creating a positive economic impact to the California economy, but also for the service that Mr. Oscar De La Hoya and Golden Boy Promotions provide to the inner city and surrounding communities.

Vice Chair Mary Lehman presented Mr. Arellano with a Certificate of Appreciation from the Commission and the Department of Consumer Affairs. She mentioned that as a former boxer who competed on Oscar De La Hoya's fight cards and completed her last fight on a Golden Boy Promotions event.

Chairman Carvelli presented Mr. Arellano with a commendation from California Assembly Speaker Adam Rendon, echoing the spirit of the prior awards.

**Agenda Item 3 – Approval of the August 15, 2017, Commission Meeting Minutes**

EO Foster presented the Commission with revisions submitted by Commissioner Martha Shen-Urquidez. She requested the record to reflect that she requested, once again, that USA Boxing send a delegate from Colorado Springs to advise the Commission as to what the is with their organization, particularly regarding the Olympics coming to Los Angeles and the issues going on with the International Boxing Association (AIBA). He stated that her revision mentioned that Mr. Joe Zanders is frequently in attendance at Commission Meetings, however has acknowledged that he can only speak on behalf of the Southern California region.

*Commissioner Dr. Vernon Williams motioned to approve the August 15, 2017, Commission Meeting minutes. Vice Chair Lehman seconded the motion.*

**PUBLIC COMMENT**

- Vice Chair Lehman complemented the recent meeting minutes and explained that retaining accurate and detailed minutes is important to ensure consistency with the past.

*The motion passed 6-0 by roll call vote.*

**Agenda Item 5 – Executive Officer's Report**

**a. Budget Update for the Support Fund, the Neurological Fund, and Pension Program**

EO Foster reported that as of the morning of the meeting, the Commission will have deposited \$699,992.81 into the Support Fund, \$1,754.17 to the Neurological Fund and \$2,9891.68 to the Boxer's Pension Fund. He explained that the State mandated a new accounting system called FISCAL which has affected all Boards and Bureaus within the Department of Consumer Affairs

(DCA). He further explained that one of the issues that they are working on is to be able to run budget reports of the expenditures. He mentioned that although the office attempts to track its expenses, it is hard to report the exact numbers. However, he assured the Commission that the revenue currently exceeds the expenses, he is just unable to report by how much.

Chairman Carvelli inquired as to when EO Foster expects to see a report from the new system. EO Foster responded that he was uncertain and stated that FI\$CAL and DCA are working hard to resolve the problem.

**b. Report on Pending and Proposed Regulations and Legislation**

EO Foster provided a summary of the pending regulations.

- Payment to Contestants – EO Foster reported this final rulemaking package was submitted to DCA Legal on October 31, 2016. He further reported that Mr. Gary Duke has been working to assemble supporting documents to proceed with the rulemaking process and that an extension was granted and is certain that the package is now making its way through the approval channels within DCA.
- Headgear for Amateur Kickboxing – EO Foster reported that a Section 100 change was submitted to the Office of Administrative Law on September 20, 2017. He explained that the California Code of Regulations (CCR) section 711 is inconsistent with Business and Professions Code Section 18766 which states that every contestant in an amateur kickboxing or MMA contest under the age of 18 shall wear protective headgear approved by the Commission. CCR 711 states every contestant under the age of 18 years may wear a headgear approved by the Amateur Boxing Federation or equivalent organization. Because of this inconsistency, this regulatory change falls within the Section 100 requirements, which is a simple procedure for “changes without regulatory effect.”
- Examination of Boxer Applicants and Neurological Assessment – EO Foster reported that the rulemaking package was submitted to DCA on August 29, 2017. He mentioned that it is a recent submittal and the DCA review process is extensive, so he is not expecting a response anytime soon.

**c. Status Update of Delegated Entities**

• **California Amateur Mixed Martial Arts Organization (CAMO)**

Mr. JT Steele, President, offered condolences, on behalf of CAMO, to Commissioner Frierson on his wife's passing. He reported that CAMO anticipates a period of less events approaching and plans to utilize the time for training of inspectors and officials. He mentioned that CAMO continues to address the issue of promoters and athletes competing in unsanctioned events. He highlighted two events, the first being an event in El Centro where many of the competitors travelled from Mexico where unsanctioned events are very prevalent to compete in a sanctioned event. The second was a professional and amateur mixed martial arts event held at the Hard Rock Casino which resides on Native American land and the Commission and CAMO were invited to sanction bouts.

Chairman Carvelli expressed that he is pleased to hear that the casino is interested in sanctioning their bouts through the Commission and its delegated entities. He acknowledged that the Commission understands that they are invited guests and appreciate and respect the welcoming.

- **USA Boxing**

Absent a representative from USA Boxing, EO Foster summarized USA Boxing's letter which was provided in the materials. Vice Chair Lehman asked EO Foster if there was a reason a representative was not able to attend the meeting. He explained to the Commission that USA Boxing was aware that the Commission was expecting their attendance at the meeting and stated that he is unsure why there is not a representative present. Vice Chair Lehman mentioned the likelihood of this being a breach of their delegation and stated that she had specific questions for them which came up in the last meeting regarding their recent fee increases. She detailed that after reviewing their financials, much of their assessments that come from California are going to the organization and expressed her concern for issues that may arise as a result of those fee increases. Vice Chair Lehman directed EO Foster to send USA Boxing a letter explaining that they are possibly in breach of their delegation by not sending a representative from Colorado Springs to appear at Commission meetings, as previously requested.

- **United States Fight League (USFL)**

Mr. Jon Frank, President, offered his condolences, to Commissioner Frierson on his wife's passing. He reported that since the last Commission meeting, USFL has had one event which was combined with a CAMO show, USFL's portion included 7 bouts. He explained that there was only one minor injury which resulted from an arm-bar. However, since it did not result in a suspension, it was not significant enough to be listed as an official injury.

He mentioned that with running CAMO and USFL shows simultaneously, comes larger shows with more bouts and is causing an issue with officials being overworked. Chairman Carvelli asked Mr. Frank if he has a plan to address the issue or if he has consulted with CAMO or EO Foster. Mr. Frank responded that the biggest issue is with finding Ringside Physicians willing to work for them. He mentioned that many of the doctors who have shown interest are concerned about their liability. Another concern that Mr. Frank reported was that many doctors are reluctant about signing off on physicals for the competitors. Commissioner Vernon Williams stated that the Medical Advisory Committee (MAC) has had many recent discussions regarding indemnification and physician malpractice concerns. He further stated that the topic of the physicals has not come up with the MAC, however at the last Commission meeting, there was a discussion about re-framing the perception of the sport. He suggested the concept of competition as opposed to just exercise which he specified were unlike, with different benefits. Chairman Carvelli agreed with Commissioner Williams and specified that safety driven, regulated competition should be the forefront of those efforts.

Vice Chair Lehman suggested that a memorandum from the Commission be made available for Mr. Frank or other delegated entities to have on-hand that points to medical journals which give comparisons on the different sports and their relative dangers. Additionally, she suggested pairing that memorandum with another which responds to the liability concerns for Ringside Physicians. EO Foster mentioned that although he is certain that the Ringside Physicians who operate the under the Commission for profession events are indemnified, he should defer to his legal counsel to advise the Commission on if that indemnification extends to the delegated entities.

Mr. Frank further reported that he has approached the Claremont McKenna College to conduct a study on the benefits of combat sports and how it aides in developing character and leadership abilities among the other benefits of the children.

- **International Kickboxing Federation (IKF)**

Mr. Steve Fossum, President, also offered his condolences, to Commissioner Frierson on his wife's passing. He started his report by mentioning that since obtaining the delegation, IKF received a lot of valuable constructive criticism from the Commission and acknowledged how much it has helped him with his delegation. He apologized to Vice Chair Lehman and mentioned that he did not intentionally disregard her request to include more information on his report. He explained the specifics of the situation in getting the report submitted and asked if he could submit a supplement to his report at the meeting. Vice Chair agreed to accept the detailed report on medical suspensions.

Mr. Fossum detailed one injury which seemed serious at the time but turned out to not be significant. He explained that he and EO Foster were in constant communication the night of the event as the athlete was being transported. EO Foster further explained that Mr. Fossum was appropriate with his level of communication in that instance and that although it turned out to not be a major injury, he was pleased to be involved in real-time. Vice Chair asked if the response to the injury was consistent with the Catastrophic Injury Plan. Mr. Fossum responded that EO Foster was the following the guidelines on his end. Vice Chair asked EO Foster what the trigger is for the delegated entities to reach out to him with injuries. EO Foster responded that he is contacted any time a transport is initiated or a significant knockout happens.

Chairman Carvelli suggested that although this detailed report is only for the Commissioners and EO Foster, the next one that will be included in his report for the public and may have too much personal information. He stated that EO Foster should work with Mr. Fossum to alter the report to allow for public viewing. Vice Chair Lehman noticed that although the suspensions are listed, the reasons as to why the suspensions are issued were not detailed. Mr. Fossum further suggested that the next report will also include transports and hospitalizations. Vice Chair Lehman noted that the report specified one of the fighters taking Prednisone and inquired about the drug testing protocol for IKF. Mr. Fossum mentioned that drug testing is not currently required for IKF shows, however he would be open to implementing a drug testing program with the Commission's direction. EO Foster suggested that he should consult DCA Legal on whether the Commission's drug testing authority extends to the delegated entities.

#### PUBLIC COMMENT

- Mr. Tony Cifuentes, Founder & Head Coach of the Highlanders Boxing Club in Highland, CA, expressed his concerns with USA Boxing and their fee increases. He mentioned that in the process of planning a recent event, they were made aware of the fee increases and were caught completely off-guard. He stated that they have held successful events for the past 15 years and this time they paid the normal sanctioning fee of \$327.00, and then remained pending with USA Boxing which they were unsure as to why. Ms. Sandy Cifuentes stated that they were unsuccessful in their numerous attempts to contact USA Boxing's headquarters. She explained that that they were then made aware that an additional \$1,500.00 fee was preventing them from approval and stated that given the short amount of time before their event, they just paid the fee. Ms. Cifuentes mentioned that although they can pay that extra fee, the concern is

that the fee increases are going to prevent many of the other clubs in California from holding events.

**d. Update on C3 Logix Sports Concussion Management Program**

EO Foster reported that Commission staff continues to test athletes both at the gyms and at the weigh-ins and as of the day of the Commission meeting, 331 C3 exams had been uploaded. He assured the Commission that he anticipates meeting the target of 500 exams by year-end. Vice Chair Lehman inquired as to what percentage that target of 500 is in relation to the licensing population. EO Foster responded that it is about 40 to 45 percent. He further assured the Commission that he and Lead Inspector, Mark Relyea, have a plan to meet the target by the end of the year.

**e. Update on CSAC 10-Point Plan to Address Severe Dehydration and Weight Cutting in MMA**

EO Foster reported that the 10-Point Plan to address severe dehydration in mixed martial arts continues to yield success in addressing severe weight cutting in mixed martial arts. He further reported that several Commissions have reached out to him get further information on the plan. Although many Commissions have not, and he cautioned that if the other jurisdictions do not get on board, the problems could become detrimental.

Commissioner Van Gordon Sauter asked EO Foster which of the other states are not following suit with the plan. EO Foster responded that California is the only state that has taken actual regulatory action to address the issue. He further mentioned that New York is looking at the plan and considering action. Commissioner Sauter asked if there was anything that California can do to help with those efforts. EO Foster responded that he has had many discussions with New York's doctors and their executive director about the plan and stated that he believes their delay is an attempt to see how it works in California.

Vice Chair Lehman recalled the about the video of an athlete in Japan who cut so much weight that he couldn't even walk on stage to weigh-in. She stated that it was terrible and incredible to watch and suggested the possibility of using that example to educate fighters. EO Foster echoed a statement in an article recently published by Marc Raimondi which said that it should not be as dangerous, or even more dangerous to get to compete, as the competition itself.

**f. Report on 2<sup>nd</sup> annual Regulating Combative Sports Conference**

EO Foster reported that with the Commission and Governor's Office's permission, he attended as an invited guest and speaker the 2nd annual Regulating Combative Sports Conference in Thackerville, Oklahoma which was hosted and sponsored by the Chickasaw Nation Athletic Commission. He detailed that he gave a lecture on functions of a Commission, the California State Athletic Commission's 10 Point Plan to address severe weight cutting in mixed martial arts, as well as a demonstration on drug testing.

EO Foster presented the Commission with a brief overview of the PowerPoint presentation that he utilized at the meeting. Commissioner Sauter suggested that EO Foster consider packaging this information in a way that could be shared with the people in California of consequence who may be unaware of the Commission's innovative and valuable efforts.

**g. Upcoming Event Schedule and discussion regarding event activity**

EO Foster reported that as of August 1, 2017, the Commission regulated a total of 118 professional combat sporting events in 2017. He presented the Commission with the updated event schedule and directed their attention to the following shows:

- 11/11/2017 - Top Rank Boxing at the SaveMart Center in Fresno – broadcast on ESPN.
- 12/9/2017 - UFC at the SaveMart Center in Fresno – broadcast on Fox.
- 1/20/2018 - Bellator at the Forum – broadcast on Spike TV.

**Agenda Item 6 – Pension Fund Subcommittee Report**

EO Foster reported that after the pension report came out, there have been several large requests. He highlighted one which was the highest account that he has observed and mentioned that once the Commission processes payment for that benefit, the report will reflect a significant increase in distributions. EO Foster further reported that Commissioner Martha Shen-Urquidez recently did an interview with Argentine Media, in Spanish, about the California Athletic Commission's Boxer's Pension Fund.

Vice Chair Lehman suggested that the large distribution that EO Foster mentioned might be a great opportunity to present publicly, with the athlete's consent, to promote the program and get attention. Commissioner Luis Ayala suggested an appropriate venue might be at a boxing event in California where the audience is most likely to be or know someone who could be eligible.

EO Foster stated that in the next year, the Commission should consider conducting an analysis on what it would take to include the Mixed Martial Arts (MMA) athletes into the pension fund. He mentioned that moving forward this kind of an expansion to MMA, may give California a huge advantage when it comes to where the athletes will prefer to compete.

**PUBLIC COMMENT**

- Roy Englebrecht, CSAC licensed promoter, commented that he knows of two boxers who have a pension with the Commission, unfortunately they are far from the age to eligible for distribution. He asked the Commission if the expansion to MMA would open an opportunity to change the rules on age requirement.
- Vice Chair Lehman mentioned the provision which allows for early distribution and asked EO Foster if that provision would help the boxers Mr. Englebrecht mentioned. EO Foster confirmed the Commission does have such provision and specified that it would help these athletes if they were able to provide sufficient medical documentation to retire. Chairman Carvelli encouraged Mr. Englebrecht to invite those athletes to attend the Commission meetings.

**Agenda Item 7 – Discussion regarding allowing boxing judges use of monitors (when available) while judging bouts and/or using more judges to score the contest so that the scores for matches best reflect what happened in the match**

Chairman Carvelli provided background on the item and invited the Commissioners and the public to provide comments and their opinion. EO Foster explained that a large portion of his time is spent constructing ways to improve scoring because it is something that has a huge impact on the fight, and the sport as a whole. He stated that the judges are asked to provide a subjective opinion of objective criteria and that event the objective criteria could be subjective depending on what they want to see. EO Foster explained that one idea is to utilize monitors in boxing for the judges,

much like the ones used in high level mixed martial arts and specified that there is no doubt the monitors have improved scoring in MMA.

He further stated that a second option, which has been considered by other states, is to increase the number of judges and to allow one judge to score from a monitor or increase the number of judges from 3 to 5. He explained that Mr. Cory Schafer runs the GLORY shows in Europe and they have tested this theory out. He stated that Mr. Schafer told him that it didn't help the scoring, what it did do was increase the number of split decisions by a lot.

EO Foster explained that the audience as well as the viewers at home have the punch stats and multiple vantage points from the various cameras surrounding the ring. However, he stated, this additional information is available to everyone other than the judges who must score the bout. He explained that the judges must make tough decisions in a matter of 10 seconds following the end of the bout and that the repercussions of a judge having a bad night, has the potential to ruin careers – not only the judge, but more importantly the athletes'.

Chairman Carvelli suggested an additional option of placing another judge in the building to watch the bouts with noise cancelling headphones on to score without being influenced by the commentators or the audience reactions. He explained that the score could be available as a data point to later match against the result of the bout and use as a training or correctional tool.

Commissioner Ayala asked as it stands currently, the referee would be able to use the monitor to determine foul before proceeding with the bout. EO Foster explained that something like that would get into the use of instant replay but that currently, that kind of use of the monitors is not an option for boxing. He further asked EO Foster if the use of monitors for judges were to be implemented in California, how he anticipates it working from a judge's perspective or an outcome of a fight. EO Foster explained that it would be a small tv positioned in front of the judge's seat and in the case that the judge was unable to see, they would glance down at the screen to assist.

Commissioner Ayala stated that although he doesn't have enough information to form an opinion, he suggested that the EO and the Commission consider if allowing the monitors might be counterproductive by introducing just another thing to focus on during the bout.

Vice Chair Lehman explained that as a former boxer, she appreciates the tradition and the purity of the sport of boxing. She agreed that something should be done to improve scoring of the bouts, however her feeling is to keep the traditional 3 judges and then add in the monitors in a room with headphones on and see how it affects the results. She suggested that a logical next step may be to hold a stakeholder's meeting and invite input from the community.

Commissioner Williams asked EO Foster what the status of how the judges currently demonstrate their proficiency in terms of training and testing. EO Foster responded that there is a judge from home application as well as POD Index, which are used as continuing education tool for training officials. He further explained that the Commission typically licenses judges who have shown proficiency in the amateur program. EO Foster acknowledged that the bouts which spurred the discussion did not take place in California, however, he stated that the problem still exists in California.

Chairman Carvelli reiterated that he has recently received a lot of angry, frustrated comments about the sport of boxing being fixed and wanted to have a discussion to see if there was a way to address the scoring concerns.

Commissioner Frierson commented that although he is open to inviting technology into the discussion and possible fix, he doesn't believe it should be relying upon to score boxing.

Commissioner Sauter commented that boxing's unforgiving nature, as a business, may be able to be sanitized by the medical processes that have been introduced, become more compassionate with the pension program and in some ways, can become more aesthetic. However, just as boxers have bad days, referees have bad days, judges have bad days as well and that it is a condition of the existence. He further commented that boxing, a great sport, has persevered for centuries, with bad days. He believes that efforts to try to purify the sport and make it flawless is ill-advised and ultimately unproductive. He mentioned that the Commission shouldn't care what the crowds think, because the crowds always come back to watch as they understand that people make mistakes and they get upset about it but that it's part of the human experience.

#### PUBLIC COMMENT

- Roy Englebrecht, CSAC licensed promoter, suggested that the Commission consider instituting a pilot program to allow a fourth judge, the referee.
- EO Foster read comments submitted by Commissioner Shen-Urquidez. She stated that she first believes that California has some of the best officials in the world. She mentioned that along with having the best, California also has the most officials compared to other states. With that, she stated, comes more effort necessary for training all officials which are ultimately one of the most important products the Commission delivers. She explained that in the past four years, the Commission has developed many ways to improve scoring and maintain the standard of scoring. These tools include a standardized test, requirements for continued education, shadow judging, contracting POD Index, official evaluations, stakeholder input on instant replay. She further commented that she believes the use of five judges versus a three-person judging system will not improve the ultimate scoring of any fight and stated that if the judges are good, three people should be able to deliver a score and in the same sense, if the judges are not good, five judges are only going to create a bigger problem. She further stated that the monitors may help, but that if the officials are not well-trained, no amount of viewing is going to help. She suggested that a questionnaire be distributed to the officials that they can complete and submit back to the Commission with how they believe their skills can be improved.

#### **Agenda Item 8 – Review and approval of Processing a Petition for “Change of Decision” Under 4 CCR § 368**

EO Foster presented the Commission with background on the need for a formal process for requesting a change of decision. He explained that he receives a lot of requests and mentioned that most of the requests do not meet the criteria in the regulations to justify a change of decision.

Vice Chair Lehman presented the Commission with the standard formal procedure and explained that, in the past, there has been some issues arising with these requests where the complainant is unclear on the procedures, whether they needed to appear in person, ability to timely submit evidence to the Commission, as well as language barriers. She explained the structure of the procedure follows the regulation text and determining what the trigger is for the EO to bring the appeal to the Commission for review.

*Commissioner Luis Ayala motioned to approved the Processing a Petition for “Change of Decision” Under 4 CCR § 368 form. Commissioner Sauter seconded the motion.*

Commissioner Ayala commended Vice Chair Lehman and Commission Staff on their work on this matter.

*The motion passed 6-0 by roll call vote.*

**Agenda Item 9 – Review and approval of Promoter application from Eric VanWagenen, Executive Producer and Brian Edwards, EVP of TV Operations for MGM**

EO Foster provided the Commission with a summary of the applicant and introduced Executive Producer, Mr. Eric VanWagenen. Mr. VanWagenen provided background on his history in promoting and producing television series involving boxing. He also introduced minor details of the proposed show.

*Commissioner Luis Ayala motioned to approve TOC 2, LLC's promoter application contingent upon submission of additional application requirements. Commissioner Dr. Williams seconded the motion.*

Commissioner Ayala suggested that the promoter consider partnering with the Commission to highlight issues that surround boxing on the show.

*The motion passed 6-0 by roll call vote.*

**Agenda Item 10 – Public Comment on Items Not on The Agenda**

No public comment received.

**Agenda Item 11 – Next Meeting Scheduled for December 12, 2017**

Proposed meeting on Tuesday, December 12, 2017, in Sacramento, CA.

<b>SUBJECT</b>	<b>Agenda Item #6</b> – Review and Possible Action of Petition to Change the Decision for Michael Guy vs. Junior Younan bout on July 29, 2017, in Long Beach, CA

### BACKGROUND

On July 30, 2017, the Commission received a formal petition to change the decision of a bout which occurred at the Queen Mary on July 29, 2017, in Long Beach, CA.

### APPEAL DETAIL SUMMARY

Mr. Michael Guy and Mr. Junior Younan competed in a bout refereed by Wayne Hedgepeth which was scheduled for eight rounds and went to a unanimous decision in favor of Mr. Younan. In his appeal, Mr. Guy details three instances in the fight where he claims that the referee did not indicate knockdowns against Mr. Younan. He believes that had the knockdowns been identified and appropriate points been deducted, the scoring of the bout would have significantly changed and ultimately resulted in Mr. Guy winning.

**Subject:** Mike Guy vs Junior Youman

To whom it may concern,

I was the lead Inspector at the Roy Englebrecht promotion held at the Queen Mary in long Beach CA on 7/29/17. Regarding the Mike Guy vs Junior Youman bout, it was a competitive bout but there were frequent instances where the referee had to intervene, and instruct/warn not to hold, push, shove, hit behind the head, or wrestle. Most of the admonishment's were directed toward Mike Guy as he was the fighter initiating most of the rule violations. At the end of one of the early rounds, M. Guy was deducted a point for flipping his opponent to the canvas at the bell. In rounds 7 and 8, on three occasions J. Youman was knocked to the ground. All three appeared to be the result of accidental tripping, or being shoved/pushed while off balance. The referee did the best he could to keep the fight as clean as possible but it was a brawler vs boxer match up that often was fought at close quarters with said warnings and violations. I believe had M. guy not flipped his opponent to the ground and had a point deducted, the decision would have been a majority draw

Unless otherwise specified, products purchased from or held at Raymond James & Associates or purchased from Raymond James Financial Services are not insured by the FDIC, are not deposits or other obligations of Raymond James Bank, N.A., are not guaranteed by Raymond James Bank, N.A., and are subject to investment risks, including possible loss of the principal invested.

**FINRA Disclosure** - For additional background information on any firm or representative registered with the Financial Industry Regulatory Authority (FINRA), please contact FINRA at 800-289-9999 or <http://www.finra.org> and request the public disclosure program brochure.

**Availability of Free Credit, Bank Deposit Program, and Shares of the Cash Sweep Money Market Mutual Fund Balance** - You have the right to receive, in the normal course of business, any free credit balance, bank deposit program balance, the net asset value of shares of the cash sweep money market mutual fund balance, and any fully paid securities to which you are entitled, subject to any obligations you owe in any of your accounts.

**Third Party Payments Disclosure** - In addition to the fees you pay directly for the services offered by Raymond James and your advisor, Raymond James receives fees from various sources. For more information on fees and expenses, please see <https://raymondjames.com/legal-disclosures/third-party-payments>.

**Cost Basis** - Effective January 1, 2011, Raymond James reports adjusted cost basis for tax lots of securities covered by the Emergency Economic Stabilization Act of 2008 to the IRS on Form 1099-B. These tax lots are indicated by a "c." Raymond James will default to the first-in, first-out (FIFO) cost basis accounting method for trades and transfers unless a different method has been selected.

For tax lots or securities that are not covered by the Emergency Economic Stabilization Act of 2008, cost basis information may not be available, may have been estimated by you or your financial advisor, or may have been obtained from third-party sources, and in these instances, Raymond James cannot guarantee its accuracy. Information for uncovered positions will not be reported to the IRS.

Gain or loss will only be calculated for tax lots that have cost basis. Gain or loss information may or may not reflect adjusted cost for return of principal/capital or accretion/amortization. Tax lots where the cost basis is true zero, displayed as 0.00, are included in cost calculations. "Gain or (loss) Pct" is calculated utilizing total cost basis.

Missing basis is not included in cost calculations. Please contact your financial advisor to have missing cost basis information added to your account.

The cost basis, proceeds, or gain/loss information reported has been adjusted to account for a disallowed loss from a wash sale. These adjustments are indicated by a "w" on the affected taxlots. A wash sale occurs when a security is sold for a loss and is re-purchased either 30 days before or after the sell.

## Understanding Your Statement (continued)

California State Athletic Comm Account No. 56658065

Cost basis information for uncovered securities or tax lots will not be reported to the IRS; it is displayed for your information only and should not be relied upon for tax reporting purposes. Past performance is not a guarantee of future results. Market valuations may have been obtained from third-party sources and Raymond James cannot guarantee its accuracy or completeness.

For securities classified as Grantor or Royalty Trusts, Master Limited Partnerships or other widely held fixed income trusts, cost basis is not adjusted. These securities receive principal payments or distributions that are classified differently by the issuer at the end of the year. Clients should continue to rely on the issuer information for both cost basis adjustments as well as proceeds adjustments for these securities. For this reason the gain/loss displayed will be unadjusted and is not a true indicator of the investment return. Any adjustment to sales proceeds will be reflected on your 1099.

Unrealized gains or losses are not calculated for depreciated gifted securities, referred to as dual basis, indicated by a "d." Both Total Cost and Gift FMV exist, as the actual gain/loss cannot be determined until the position is sold.

Reinvestments of dividend or capital gain distributions are excluded from Amount Invested but are included in Total Cost Basis. For any security in which a client has elected the average cost reporting method, the Amount Invested will utilize the average cost per share of all tax lots to calculate amount invested.

Mutual fund tax lots are displayed as one total position and may include covered and non-covered tax lots some of which could be adjusted for wash sales. Sold mutual fund shares that were purchased through reinvestments are combined and shown with a purchase date of "various."

Adjustments made to cost basis throughout the year may cause the information displayed on your client statement to differ from what is reported on the 1099-B which is provided to the IRS at the end of the year.

Please refer to the fixed income and alternative investment disclosures for additional cost basis information on those securities.

**Raymond James Bank Deposit Program** - The Raymond James Bank Deposit Program is a multibank cash sweep program that deposits available cash in your brokerage account into interest-bearing deposit accounts at one or more banks. Raymond James Bank Deposit Program balances are insured solely by the Federal Deposit Insurance Corporation (FDIC), subject to FDIC limitations and guidelines, which are explained at <https://www.fdic.gov>.

The Raymond James Bank Deposit Program rate displayed in the Cash & Cash Alternatives section of your statement is the established rate for the last business day of the reported month. However, in the event that a large deposit is made on the last business day of the month, the rate for the next business day may be displayed. Estimated Annual Income is calculated using this rate and, therefore, is solely an estimated value for the month and may not reflect your actual income.

"Your bank priority state" indicates the corresponding Bank Priority List that applies to your account. "RJBDP participating banks you declined" displays the names of the banks you have designated as ineligible to receive your funds, which results in your funds being directed to the next bank on the Bank Priority List. "Participating banks recently added" displays additional banks that have been added to the program in the last 90 days. You have the right to designate any bank in the program as ineligible to receive your funds by contacting your financial advisor.

More information about the Bank Deposit Program, including the current Bank Priority Lists, is available at <https://www.raymondjames.com/rjbdp>.

**Exchange-Traded Products (ETPs)** - ETPs are investment products that are listed on a national stock exchange and can thus be bought and sold in the equity trading markets. ETPs encompass a number of structures that track an underlying benchmark, index or portfolio of securities. ETPs may be structured as registered unit investment trusts (UITs), exchange-traded funds (ETFs), exchange-traded notes (ETNs), grantor trusts or commodity pools.

A number of ETPs employ, to varying degrees, more sophisticated, financial strategies and instruments such as leverage, futures, swaps and derivatives in order to achieve their investment objectives. Those ETPs are commonly referred to as "non-traditional ETPs." Non-traditional ETPs are more complex than traditional ETPs and may not be appropriate for all investors. These may include leveraged or inverse ETPs, some actively-managed ETPs, futures-linked ETPs, volatility ETPs, some ETNs and other products.

Non-traditional ETPs will generally have higher fees than traditional ETPs. All fees and expenses are described in the prospectus. The ability of an ETP issuer to perpetually create new shares contributes to an ETP's efficiency and accuracy in tracking its index. However, under certain circumstances, issuers may cease or suspend creating new shares, which may cause ETPs to trade at a price that differs significantly from the value of its underlying holdings or index. Furthermore, all ETPs may trade at a premium or discount to their net asset value (NAV) or indicative value in the case of ETNs.

Some ETPs may not trade in high volume, which could impact your ability to buy or sell your shares at the desired price and/or quantity. ETPs can be closed for a variety of reasons, which can cause forced taxable events for investors, including capital gains distributions. Furthermore, there can be closing costs associated with the final liquidation of the ETP and index tracking uncertainty as the ETP liquidates its assets.

Investors should consider an ETF's investment objective, risks, charges and expenses carefully before investing. The prospectus, which contains this and other important information, is available from your financial advisor and should be read carefully before investing.

**Time Weighted Performance Reporting** - Performance returns are calculated net of management fees, if applicable. Returns for periods greater than one year are annualized returns unless they represent entire 12-month periods. All performance figures exclude unpriced securities (including securities of indeterminate value), limited partnerships (other than limited partnerships classified as Alternative Investments and appearing in that section of your statement). Performance for Annuity and RJ Bank CD's may not be all inclusive. Previous calculations for managed accounts may have been adjusted for investment manager performance. Considering these exclusions, overall performance may be different than the results presented in this statement. Past performance is not a guarantee of future results. Information used to calculate performance may have been obtained from third party sources and Raymond James cannot guarantee the accuracy of such information.

**Quarterly Asset-Based Advisory Fees** - After the initial billing, your advisory fee is typically calculated in advance and deducted from your account(s) in the months of January, April, July and October. Your advisory fee is calculated based on the Account Value as of the last business day of the previous quarter (ex. the quarterly fee assessed in July is based on the last business day of June). The actual fee shown under the "Account Activity" section is calculated using the following formula:

## Understanding Your Statement (continued)

California State Athletic Comm Account No. 56658065

$(\text{Account Value} \times \text{Advisory Fee Rate}) \times (\text{Days in period} \div \text{Days in year})$

For purposes of calculating asset-based advisory fees, Raymond James uses the term "Account Value". Account Value is defined within your investment advisory agreement as "the total absolute value of the securities in the Account, long or short, plus all credit balances, with no offset for any margin or debit balances." The value displayed on your brokerage statement may be different than the Account Value for any of the following reasons:

- trade date (Account Value) versus settlement date (brokerage statement)
- margin balances, proceeds from short sales & call/put writing
- billing treatment on cash balances
- designation of administrative-only assets
- primary market distributions (initial public offerings and other new issues)

Please see the "Brokerage Statement and Performance/Billing Valuation Differences for Fee-Based Accounts" section of Raymond James' Form ADV Part 2A or Wrap Fee Program Brochure for a more thorough discussion regarding how Raymond James values your account for advisory fee purposes, a current copy of which may be obtained from your financial advisor or by contacting the Asset Management Client Services department at (800) 246-8861, extension 74991.

**Estimated Annual Income and Estimated Income Yield** - The Estimated Annual Income (EAI) and Estimated Income Yield (EIY) provided on this statement are an estimate of the income a security will distribute during the year. These figures should not be confused with actual cash flows, investment yields or investment returns. Actual income or yield may be lower or higher than the estimated amounts. A number of factors may influence the actual income or yield that is received. The amount or frequency of an issuer's dividend may fluctuate or cease, which may cause the income and or yield of the security to fluctuate. EIY reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate. EAI and EIY for certain types of securities could include a return of principal or capital gains which could overstate the EAI and EIY. Information used to calculate Estimated Annual Income and or Estimated Income Yield may be obtained from third party sources and Raymond James cannot guarantee the accuracy of such information. Estimated Annual Income and or Estimated Income Yield amounts should not be used as a financial planning tool.

**Pricing** - While sources used for pricing publicly traded securities are considered reliable, the prices displayed on your statement may be based on actual trades, bid/ask information or vendor evaluations. As such, the prices displayed on your statement may or may not reflect actual trade prices you would receive in the current market. Pricing for non-publicly traded securities is obtained from a variety of sources, which may include issuer-provided information. Raymond James does not guarantee the accuracy, reliability, completeness or attainability of this information. Investment decisions should be made only after contacting your financial advisor.

**Standing Withholding Elections** - The term "standing withholding election" refers to a federal or state income tax withholding election made for a Raymond James IRA that is carried over and applied to all future distributions from that IRA unless it is changed or revoked.

If income taxes are being withheld from the IRA payments you are receiving and you do not wish to have taxes withheld, please notify your financial advisor. However, if you elect not to have withholding apply or you do not have enough federal income tax withheld from your IRA payments, you may be responsible for the payment of estimated taxes. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

If income taxes are not being withheld from your IRA payments because you elected not to have withholding apply and you now wish to revoke that election and have income taxes withheld, please notify your financial advisor.

**Asset Allocation Analysis** - This analysis is for informational purposes only and is intended to be used as part of a complete portfolio review with your financial advisor. The data provided in the asset allocation analysis is subject to inherent limitations and is not guaranteed to represent actual asset class exposure(s) within your account(s) at the time of calculation. See <https://investoraccess.rjf.com/faq/#assetallocation> to learn more. Raymond James and Morningstar data are subject to the availability of fund filings as well as internal analysis and may not represent real-time allocations.

The Cash & Cash Alternatives asset class represents cash and money market holdings, as well as cash allocations contained in mutual funds, annuities, and other investment products. For an actual cash value, please refer to the holdings sections of the Client Statement.

Due to rounding, the sum of the broad classes may not exactly match the total assets value.

**Product Interest Rate Risk** - The performance of your investment can be affected by various risks, including without limitation, interest rate risk. The fixed income portion of your investment is particularly sensitive to interest rate risk. Generally, a rise (fall) in interest rates will reduce (increase) the market value of the fixed income portion of your investment. An overview of this and other risks is available at <https://www.raymondjames.com>, <http://www.finra.org>, <https://emma.msrb.org>, and <http://investinginbonds.com>.

## MEMORANDUM

DATE	December 12, 2017
TO	Commissioners California State Athletic Commission
FROM	Andy Foster, Executive Officer California State Athletic Commission
SUBJECT	<b>Agenda Item #9</b> - Discussion, review and possible action regarding the delegation of amateur kickboxing to the International Kickboxing Federation (IKF)

### BACKGROUND

In March 2014, the California State Athletic Commission delegated amateur kickboxing to the International Kickboxing Federation (IKF). IKF has sanctioned over 170 California events since receiving the delegation.

At the December 16, 2016, Commission Meeting, the Commissioners approved the International Kickboxing Federation delegation for a term of one year. To continue the delegation of amateur kickboxing to IKF, the Commission will need to issue a new delegation.

### RECOMMENDATION

I recommend granting the delegation of amateur kickboxing to IKF with the same terms as the California Mixed Martial Arts Organization (CAMO) and the United States Fight League (USFL) with an ongoing delegation that can be reviewed or revoked at any time by the Commission.

## MEMORANDUM

<b>DATE</b>	December 12, 2017
<b>TO</b>	Commissioners California State Athletic Commission
<b>FROM</b>	Andy Foster, Executive Officer California State Athletic Commission
<b>SUBJECT</b>	<b>Agenda Item #10 - Executive Officer's Report</b>

### A. Budget Update for the Support Fund, the Neurological Fund, and Pension program

The Commission's revenue from July 1, 2017, to December 1, 2017, is \$832,762.12 to the Support Fund, \$2,801.42 to the Neurological Examination Account, and \$245,024.96 to the Boxers Pension Fund.

The Commission still does not have any budget reports due to the new Fi\$cal accounting system.

### B. Report on Pending and Proposed Regulations

- **Payment of Contestants** (Amendment to Title 4, California Code of Regulations section 232.) – submitted final rulemaking package to OAL on 11/6/17.
- **Examination of Boxer Applicants** (Amendment to Title 4, California Code of Regulations section 280.) Submitted to DCA for review and approval on 8/29/17.

### C. Status Update on Delegated Entities

- CAMO Report – please see attached report.
- USA Boxing Report – please see attached report.
- USFL Report – please see attached report.
- IKF Report – please see attached report.

### D. Update on C3 Logix Sports Concussion Management Program

The Commission continues to test athletes both at the gyms and at the weigh ins. As of this writing, the Commission has uploaded approximately 420 C3 Logix exams. Commission staff is on track to meet the goal of 500 uploaded exams by year end. I am also in discussions with the C3 Logix vendor to allow more locations for athletes to get tested throughout the state. I will keep you posted on that progress.

### **E. Upcoming Event Schedule and discussion regarding event activity**

I would direct your attention to the following significant events:

- 12/9/2017 – UFC at the Savemart Center in Fresno – broadcast on Fox
- 1/20/2018 – Bellator at the Forum – broadcast on Spike TV
- 1/27/2018 – Bellator at Pechanga – broadcast on Spike TV

For the time period between January 1, 2017 through December 3, 2017, the Commission has regulated 135 professional combat sports events.

### **F. Staffing Update**

Upon my request and recommendation, the Director of Consumer Affairs has requested, on behalf of the Commission, to California Human Resources that the Chief Athletic Inspector Classification be resurrected for State Athletic Commission utilization if needed. The position was eliminated without our knowledge because it was vacant for over two years. This position is unique to the State Athletic Commission and was in existence for approximately 80 years before it was eliminated. I have explained that this is a mission critical position and it should be returned to the State Athletic Commission.

### **G. Office Licensing and Field Database Demonstration**

In the Bureau of State Audits report from 2012 titled "State Athletic Commission: Its Ongoing Administrative Struggles Call its Future Into Question", one of the recommendations from the report stated:

*"To ensure that it adequately tracks critical information related to its basic functions and mission, the commission should work with Consumer Affairs to ensure that the new online program will meet its needs and requirements. Once the program is in place, the Commission should use it as a central means for tracking its operations"*

When this recommendation was made, it was done with the premise that the Commission would one day utilize the Breeze database system. While this did not happen, the Commission has been working with the DCA Office of Information Services to modernize our business operations. With the goal of critical tracking of information, uniformity, and efficiency improvements, a new licensing and field tracking system and database has been created.

Mrs. Rebecca Relyea and Mr. Mark Relyea were both very instrumental in this system coming to fruition. The new system streamlines the office and field operations into one system, and allows the promoters the quickest and most up to date information across and wide variety of areas to assist with their show planning. The program also allows quick and seamless changes should any values change such as mileage rate, Commission approved pay scale, etc. While this system may not "fully implement" the auditor's recommendation, it is very much something that "will meet its (the Commission) needs and requirements". We also plan to train all of the lead inspectors and office staff on this system so we comply with the spirit of the State Auditors recommendation. We are looking for a statewide implementation of this new system by March 1, 2018.

**Subject:** Fi\$cal Reports

In July 2017, the Department transitioned from CalStars to the new statewide Accounting and Budgeting system known as Fi\$Cal. The Department went "live" officially on July 10th and since then has made great strides in understanding and transacting within the system. Any type of significant change or transition to a system such as Fi\$Cal inherently brings with it challenges and hurdles to overcome. One of the main challenges we have encountered has been the closing of Fiscal Month (FM) 01 transactions. While it was anticipated that the departments that went live in July would be able to close FM01 by mid-September and FM02 following shortly after, that is not the case. It is now anticipated that FM01 will be closed by November barring any other challenges or problems that arise. As a result, expenditure and revenue reports have proved difficult to extract from the system and has caused a delay in providing this information.

Our Office is working on standardizing and formatting reports that are available in the system into a streamlined and transparent format that will be easily digested and provide clients with the necessary data for tracking and projections. Another side effect of the challenges we have faced while transacting in the system is the timing of expenditure postings and backlogs that are being worked through. Due to this timing issue, you can expect to see minimal Operating Expenses being recorded in FM01 as a majority of the transactions that were able to post in the system were labor costs. FM02 will see a spike and higher than normal expenditures being posted as the transactions are caught up from FM01. Beginning with FM03, we expect the transactions to post in a more normal fashion as the backlogs are addressed.

Re: CAMO UPDATE / DOCUMENT REQUEST

---

Below and attached please find a CAMO update and report in anticipation of the regularly scheduled CSAC meeting scheduled for December 12, 2017 in Sacramento, CA:

**1. CAMO SAFETY AND SUSPENSION REPORT: UPDATE**

There have been no major injuries of a heightened concern for the commission to review since the last CSAC meeting and report on October 17, 2017 in Los Angeles, CA.

**2. FINANCIAL REPORT:**

No update from last report. CAMO reserves are within required operating ranges.

**3. INSPECTOR TRAINING:**

CAMO previously had an inspector training scheduled for December 2017 which did not happen due to our unusually busy December calendar. Traditionally, December is a very slow month and this year was an exception. Due to the busy December calendar, we are rescheduling training until January-February of 2018.

**4. PROMOTER SUMMIT:**

CAMO recently had a promoter meeting that was attended by several of the most active and largest promoters of amateur MMA in the State of California. There was a tremendously successful and productive discussion about the state of amateur MMA and the trends we are seeing in California. There were many ideas shared and we will work with Executive Officer Andy Foster to discuss some of the proposed changes that the community would like to see in 2018.

In closing, 2017 has been an exceptional year for the CAMO program as we have seen many CAMO alumni fighting on the biggest stages in the sport and a tremendous amount of new talent emerging. CAMO has also seen growth in new areas including Modesto, El Centro, Livingston, and at casinos that were formerly home to regulated events. We are especially excited to address weight-cutting and to collaborate with CSAC in 2018 to explore opportunities to maintain CAMO at the forefront of this issue. Thank you for your continued support.

Sincerely,

JT Steele | President, California Amateur Mixed Martial Arts Organization, Inc.

Andy Foster, Executive Officer  
California State Athletic Commission  
2005 Evergreen St., Suite 2010  
Sacramento, CA 95815

Dear Mr. Foster,

It is hard to believe another year has nearly passed. The confidence placed with USA Boxing as the delegated entity for amateur Olympic-style boxing in your state by the Commission is gratifying and very much appreciated. We are pleased to serve your constituents throughout California by providing opportunities for youth to participate in sport as well as safe and healthy outlets to spend their free time.

The State of California has a thriving amateur boxing program. Through November 30, 2017, Local Boxing Committee membership in the state totaled 5,223 (3,792 boxers and 1,431 coaches, officials and doctors). A detailed report broken down by LBC is enclosed. 244 clubs held 168 sanctioned events, contesting over 3,300 bouts with ambulances on site for each of these events.

USA Boxing continues to work with the Commission on the incident that occurred March 29, 2017 during the Golden Gloves boxing tournament at Lincoln Park in Los Angeles. USA Boxing concluded its investigation, providing a full report to the Commission. The Attorney for Mr. Corona requested a continuance of the scheduled September 13, 2017 hearing and, although we have tried to contact him since, have not heard back as to a new hearing date. A timeline regarding the incident is included with this report. We will notify the Commission when a new hearing date has been agreed upon.

Sanctioned events within California are continually updated and posted on the USA Boxing website ([www.usaboxing.org](http://www.usaboxing.org)). USA Boxing appreciates the Commission's ongoing support of its youth boxing programs.

I am always available to you and the Commissioners and welcome contact regarding questions, comments and concerns.

In your corner,

#### **5. Proposed rule changes for 2018**

##### Article II

##### Section 3

- If the bout ending injury was caused by no fault of either fighter, the bout will be declared a Draw. A “No fault” injury is defined as an injury that does not involve the contest itself or an injury where both athletes are equally at fault. If a “no fault” injury occurs in a tournament the uninjured athlete will advance in the bracket.

*(Proposal to remove this and declare the uninjured athlete winner via injury default.)*

##### Section 4

- Athletes hurt by a legal technique should be afforded a short recovery period and not be “finished off” while injured. Referees should halt the bout and conduct a short evaluation to determine if the athlete is fit to continue. The medical official may be summoned to help in the evaluation.

*(Proposal to add this rule which has been the practice of referees to protect an injured athlete from being “finished off” during a state of distress)*

##### Article III

##### Section 5: Re-Start Positions

- Elevating opponent fully above hips is considered an effective escape of attempted submission or guard. Referee should break the hold to prevent an unintentional slam.  
*(Proposal to add this rule which has been the practice of referees to protect an injured athlete from being "finished off" during a state of distress)*

## MEMORANDUM

<b>DATE</b>	December 12, 2017
<b>TO</b>	Commissioners California State Athletic Commission
<b>FROM</b>	Andy Foster, Executive Officer California State Athletic Commission
<b>SUBJECT</b>	<b>Agenda Item #11</b> – Report on CSAC 10 Point Plan to address severe dehydration and weight cutting in MMA

At the May 16, 2017, Commission meeting in Anaheim, the Commission approved the 10 Point Plan to address severe weight cutting and dehydration in mixed martial arts (MMA) athletes. In approving the plan, the Commission requested a review of the plan's progress in approximately 6 months. Since the plan initiated, Commission physicians have administratively moved a total of 18 MMA athletes up to more appropriate weight classes. In my view, the plan has had a high degree of success, as hundreds of athletes have participated in the program and many have taken steps to improve their weight cutting process.

After careful study, I have noticed that one element should perhaps be added to address extreme weight cutting, although it would not be from the Commission's regulatory side. Addressing the proper fight weight through some form of incentives for proper weigh-in behavior would be beneficial for promoters to engage in. For example, the contract could be written a bit differently. Currently, we penalize the athlete on their show and win bonus (if they win) when they miss weight. One idea would be to offer a small bonus for making weight, and then not weighing more than the 10% plus one pound the next day. I am not certain of exactly the right approach, but financial incentives for appropriate behavior would be very beneficial to the promoters, as I would hypothesize that fighters would respond favorably and try to "win" the extra money by practicing safer weight management.

## MEMORANDUM

<b>DATE</b>	December 12, 2017
<b>TO</b>	Commissioners California State Athletic Commission
<b>FROM</b>	Andy Foster, Executive Officer California State Athletic Commission
<b>SUBJECT</b>	<b>Agenda Item #12</b> – Review and approval of Petition to Change Decision Form

### **BACKGROUND**

The Commission is responsible for conducting hearings including Petitions for Change of Decision. At the August 2017 CSAC Meeting, the Commission discussed an action plan to develop guidelines and procedures for Commission staff to use when a Petition for Change of Decision is received. At the October 2017 CSAC Meeting, the Commission approved the procedures for processing a Petition to Change Decision. Attached is draft of Petition to Change Decision form that will be available for athletes to use if requesting a change of decision.

### **RECOMMENDATION**

Review and approval of the Petition to Change Decision form.

## PETITION FOR CHANGE OF DECISION UNDER 4 CCR § 368

This request is to be forwarded to the Commission office at 2005 Evergreen Street, Suite 2010, Sacramento, California 95815 or via email at [csac@dca.ca.gov](mailto:csac@dca.ca.gov) and must be received by the office within five (5) days of the decision per 4 CCR § 368)<sup>1</sup>. This form is recommended but optional. The only requirements is that the petition be in writing and timely delivered to the Commission.

Petitioner Name: \_\_\_\_\_

Petitioner Address: \_\_\_\_\_

Telephone Number: \_\_\_\_\_ Email Address: \_\_\_\_\_

Date of Decision/ Bout: \_\_\_\_\_ Bout Results: \_\_\_\_\_

Manager Name: \_\_\_\_\_

Under which subsection(s) of 4 CCR § 368 are you requesting a change of decision (please check all that apply):

- (a) There was collusion affecting the result of the contest;
- (b) The compilation of the scorecard of the judges, and the referee when used as a judge, shows an error which would mean that the decision was given to the wrong boxer;
- (c) There was a violation of the laws or rules and regulations governing boxing which affected the result of the contest.

If requesting a change of decision under subsections (a) or (b), please explain in detail the facts showing you qualify for a change of decision under that section (attach additional sheets of necessary). Please also attach to this form any further factual support in support of your position.
